

Mid City Center Garage Cincinnati, Ohio

Precaster: Hoosier Prestress Inc

Contractor: Cornerstone Master Builders, Inc

Architect: Childress & Cunningham

Owner: JLS Reality Management

This parking deck was an addition to the owner's original parking lot. They had outgrown their existing parking requirements and needed to add parking on a sloped lot. Hoosier recommended that they extend the parking deck over the lower level with Precast hollow core plank. This was completed within 8 weeks from design to completion.
